ARIC Members Presentations

ARIC presentation to members on Global Opportunities Program

21 October 2009

4.00pm - 6.00pm

ARIC presentation to members on Global Opportunities Program by Hayden Williams, National Industry Manager, Automotive and Advanced Manufacturing and Garry Kennedy, Senior Industry Adviser, Rail, Aerospace and Defence.

This event is designed to inform members of the latest development of Global Opportunities Program for companies planning to export.

Members will also hear from Mr Bryan Nye on the future plans for Australian Rail Suppliers under the new operating arrangements between ARIC and ARA.

ARIC will also release the rigorous market analysis report commissioned by Austrade and completed by GHD Meyrick.

A formal presentation will be followed by an open forum discussion and then an opportunity to network among members. Please register your attendance at aric@aric.com.au.

Location Level 31, 140 William Street Melbourne - Megan O'Donoghue Room.

Global Opportunities Report

Austrade has provided funds to ARIC to prepare plans for pursuing Global Opportunities for Rail Suppliers. This program has been broken down across several stages, such as:-

- Stage 1 was delivered by Ausrail Technology in the form of facilitating a workshop and creating a business plan report.
- Stage 2 was delivered by GHD in terms of market analysis based on stage 1 report and delivery of more detailed information in a final report.

ARIC in conjunction with Austrade would like to present this [current report](#) developed from the outcomes of stages 1 and 2 to organisations with an interest in export opportunities, in Asean, India and Middle East. If after viewing the report you wish to participate in advancing further opportunities with Australian companies please contact Garry Whiting 02 9270 4500 or email aric@aric.com.au.
